INDUSTRIES & APPLICATIONS

Packaging

The packaging industry serves for food, non-food and personal, home-care segments. HDSS (Heavy Duty Shipping Sacks), bags, collation shrink, stretch hood, compression packaging, lamination films, bag-in-box, barrier films, lids, caps and bottles are some of the examples for this industry.

Agriculture

Preserving plants and crops in the field are especially matter of efficiency of greenhouse, mulch, silage films. Axia Plastics's offering with ExxonMobil Chemical's portfolio is top notch for agricultural solutions.

Hygiene and Healthcare

Baby diapers, femhy pads and adult incontinence products utilize significant percentage of polyolefins. Especially for breathable, non-breathable backsheets, soft touch PP based spunbond nonwovens, elastic films for waistbands are some examples.

Construction

Geomembranes, protective films for buildings, tunnel liners, compounds for insulation of construction are the couple of examples for this industry.

Rigids

Consumers products that are used by every individual in the world are mainly based on plastics and appliances like washing machine/ dishwasher, household products like screwdriver, caps, lids, bins, crates are served by our significant product offerings.

Automotive

Superior performance of ExxonMobil impact copolymer PP enable durable, consistent automotive parts.

Axia Plastics markets a comprehensive portfolio of polymers from the world's leading producers, supporting their participation in the European marketplace. Customers benefit from our European presence and high level of product stewardship across a diverse range of markets and applications.

Local distribution presence in key markets allows us to deliver products to our customers' facilities. Our marketing planning is based on our suppliers' objectives and our customers' needs. Axia's capability through local presence ensures a tailored service strategy for suppliers and customers.

Axia Plastics is the distribution company for UK, Ireland, Benelux, Germany, Austria, Switzerland, the Baltics, Poland, Czech Republic, Denmark.

Axia Plastics is the
distribution company
for Northern Europe.
